WE THINK GREEN

Sustainability at Kameha Grand Zurich

MINERGIE-house

Reduced cooling requirements due to the double skin facade of the building with shading slats

Waiver of table linen at the restaurant L'Unico and partly at the banquet premises

E-charging stations in the underground car park

Recycling concept with consistent waste separation

LED lighting throughout the house
(navigated by building control system)

The 245 rooms are navigated by the control system
(light, climate, shading)

WE THINK GREEN

Sustainability at Kameha Grand Zurich

In the absence of the guest (upon removing the room key), automatic activation of the ECO mode in the rooms (the ventilation system is running down, the lights turn off automatically)

Towel Initiatives (recommending of multiple usage of towels during our guest's stay)

Sustainable cleaning and rinsing agents

No use of radiant heaters outdoors

Cooperation with focus on using regional products

Energy efficiency through the use of state of the art appliances (kitchen, cold stores etc.)
